

K-Love radio station serves me as a local resident by: Letting my family and I enjoy having a radio station that plays the type of music that we all enjoy (Christian Music).

I believe that letting an LPFM station take over the frequency that K-Love now uses would be a travesty to our community. K-Love plays positive and encouraging worship music that makes my day as it does many other residents of the Grand Valley (Western Colorado).

I believe that the music and news services provided by K-Love have a positive and encouraging impact on our community.

Signed Gregory French
